

Biography

LIM WOAN TING

Bachelor of Science (Hons) in Resource Biotechnology

Lim Woan Ting was born in Butterworth, Penang on 30th December 1994. She is a final year student of Bachelor of Science (Hons) in Resource Biotechnology at the Universiti Malaysia Sarawak (UNIMAS), with a current CGPA of 3.77, and she will be graduating in November 2017. As a resource biotechnology student, she has trained to perform latest biotechnology techniques through some of the courses offered in the department. She is extremely passionate about molecular biology, microbiology and genetics, her final year project related to mitochondrial DNA allows her to have a unique opportunity to integrate these passions. She was granted with JPA scholarships and UNIMAS Dean's List award (GPA > 3.50) for her outstanding academic performance. She is a highly committed, responsible, self-motivated and result-oriented individual. She is currently having her industrial training in Dynapharm (M) Sdn. Bhd. She resides in Butterworth, Pulau Pinang and can be contacted at ting9122@gmail.com.
